

Dangerous Lard

Lard at its best is unwholesome, indigestible. It makes food shortened with it soft and greasy. At its worst, it is unhealthy and filled with dangerous bacteria. It is condemned by every medical and culinary authority.

Every food scientist agrees that vegetable oil is nutritive, digestible, and free from disease germs.

Healthful COTTOLENE

is composed mainly of refined vegetable oil. It is nutritious and palatable. Food shortened with or fried in it can be eaten by anyone without harmful results.

The genuine is sold everywhere in one to ten pound yellow tins, with our trade mark—“Cottolene” and steel head in cotton-plant wreath—on every tin. Not guaranteed if sold in any other way. Made only by

and joy of my liver, the thing you ask of me is both difficult and useless. Although I have passed all my days in this place, I have never counted the houses far from me. I have never counted the number of the inhabitants, and as to what one person loads on his mules and another stows away in the bottom of his ships, that is no business of mine. O my soul, O my heart, seek not after the things that concern thee. Thou comest to us and we welcome thee. Go in peace. Of a truth thou hast spoken many words, and there is no harm done, for the speaker is one and the listener is another. After the fashion of thy people thou hast wandered from one place to another until thou art happy and content in none.

TO BABY.

On a winter night when all was still
And the air was full of frost and chill
There came to our hearts a cherub fair
With eyes of blue and soft golden hair.
Her dimpled form and her oval face
Seemed we were adorned with winsome grace.
And our hearts, carried by sweet love,
Caught a fleeting glimpse of life above.
In the place called heaven, beyond the blue,
The land of rest for the good and true.
For home made glad by innocent mirth
Is the brightest spot on God's green earth.

TECUMSEH AND THE COMET.

He Told the Indians It Was His "Arrow in Heaven."

Ben L. Jones has converted the old fort built in 1806 at Fort Hawkins into a barn. Although the old log structure has stood the storm of shot and shell and has been exposed to all the varying changes of weather since that early period, not an unusual thing is to be seen in it today. The logs of which it is constructed are as solid and sound as they were at first. The fort was made of Georgia heart pine, and today it would burn like rosin if a match were stuck to a ragged end.

The structure was built as a government trading post or factory, where deerskins were purchased from the Indians. During the Creek war, from 1812 to 1814, it was a rendezvous and distributing point for the United States soldiers, and Major Phil Cook was in command. Anticipating the dangers from the torch of the treacherous red man, the whites built the fort on a high stone foundation, the floor of the wooden structure extending beyond the rock walls. Portholes were made in the extended floor so as to shoot Indians who might try to scale the walls to set fire to the woodwork.

During the famous Creek war incident by Tecumseh and his brother, who was known as the prophet, this building was in the center of the territory attacked. Tecumseh was one of the most eloquent of Indians, and when the war was begun between Great Britain and the United States he communicated with the tribes from Florida to Canada, advising them that then was the time for the Indians to reclaim their lands from the whites. He read in an eastern paper that a comet would appear in the sky at a given time. So he notified the Indians that when his arrow appeared in the heavens it would be a sign for them to attack the whites. Old Fort Hawkins perhaps was more vigorously attacked in pursuance of this order than was any other in the country.

The fort received its name from Hon. Benjamin Hawkins, a senator from North Carolina, who had been appointed a commissioner to Georgia to draw up a treaty with the Creek Indians.

The building which Mr. Jones converted into a barn is a historical curiosity, and interesting volumes might be written about the scenes and tragedies that have taken place around it.—Macon Telegraph.

The Head of the Table.

In the article on the Gleanings branch of the Macdonalds James Logan, in his "The Clans of the Scottish Highlands," says:

"At the castle of Aros the lords of the isles held their parliament and passed the royal decrees, which distant tribes were bound to respect. The simple form in which important rights were conveyed by these princes may be illustrated by the following brief but binding charter, which loses in translation from the original Gaelic: 'I, Donald, the chief of the Macdonalds, sitting on the hill of Dun Donald, give the Macdonalds a full right to Kilmarinbeg from this day till tomorrow, and so on forever.' A lesson was afforded by one of these lords which might greatly benefit some sticklers for procedure. He had at a banquet been placed by mistake at the bottom of the table, on perceiving which considerable emotion arose among the company, who dreaded the consequence of the supposed indignity, but the great ceannmhinidh (head of his race) speedily allayed their apprehensions by exclaiming emphatically, 'Where the Macdonald sits, know ye, gentlemen, that is the head of the table.'"

"Book of Mormon."

The "Book of Mormon" has been proved to be a literary plagiarism, being a free paraphrase of a romance written by the Rev. Solomon Spalding, in 1816, the manuscript of which came into the possession of Joseph Smith, and he, sitting behind a curtain, dictated it to Oliver Cowdery, who, seated out of sight of the reader, wrote the matter as it was given him. Smith pretended that the book was discovered to him by revelation and dug up from the side of a hill not far from Palmyra, in the county of Ontario, N. Y. The claim was made by Smith that the writing on the plates was engraved in "reformed Egyptian," which he was unable to read until magic spectacles, which he called his Urim and Thummim, were given to him, enabling him both to read and translate into English. The spectacles and the metal plates have disappeared, and the story of the dictation makes tolerably clear the manner in which the "Book of Mormon" had its origin.
